RESPONSIBLE MANUFACTURING CSR

HISTORY | INTRO.

SEGEN International, a family owned business, is situated in Sialkot, a city of Pakistan known all over the world for its dexterous artisans who have excelled in making Leather-Products, Sports Goods and Surgical Instruments. Founded in 1990 in a small building with a few employees, the production facility of **SEGEN** International is now spread over 43560 Square feet with 900 highly skilled employees administered by a well experienced team of 50 management professionals under the entrepreneurship of a family that believes in excellence through commitment.

SEGEN International specializes in manufacturing of Leather Gloves and Safety Ware. It produces a variety of 200 gloves and has the capacity of manufacturing more than 3 million pairs per annum, thanks to its in-house tannery having 15 machines combined with 500 stitching machines and 35 hydraulic clickers for cutting.

SEGEN International is a ISO-9001 certified company by BUREAU VERITAS (BVQI) with a flourishing export to AUSTRALIA & NEW ZEALAND, USA & CANADA, EUROPEAN UNION, MIDDLE EAST AND MEXICO.

QA (Quality Assurance)

ENHANCED QUALITY CONTROL & QUALITY ASSURANCE AT EACH STAGE. MATERIAL TESTING EITHER LEATHER, FABRIC OR ANY OTHER THROUGH CERTIFIED CALIBRATED EQUIPMENTS AT EACH STAGE TO ENSURE

THE CONSISTENT QUALITY TO MEET THE MODERN INTERNATIONAL STANDARDS (CE, ANSI, ISO, AS/NZS, SASO BY SABER).

R&D DEPARTMENT WORKING HARD TO DEVELOP NEW INNOVATIVE PRODUCTS THROUGH INNOVATIVE MATERIALS & IDEAS

We offer our customers with CUSTOMIZED BRANDING, PRINTING, LABELING, HEADER CARDS & PACKAGING.

LEATHER

The Classic leather Redefined

Type of Leathers

Leather are a favorite among workers in various industries because of the material's durability, lifespan and abrasion resistance. But different hides will have distinct benefits. We need the right combination of materials and construction for your application.

Buffalo skin is known for its superior abrasion resistance, being extremely rugged, durable and strong.

Cow skin is the most popular leather because it is very easy to maintain. Cowhide has a great value for texture appearance, durability and comfort.

Goatskin is often considered nature's strongest leather thanks to its high tensile strength and abrasion resistant properties. It has an excellent even though it is thin, the natural oil content makes goatskin soft and pliable.

Sheep skin is the softest and most comfortable leather. This delicate, lightweight leather provides optimal dexterity and touch sensitivity.

Heavy duty cowhide welder gloves extended 22 inches

This welding gloves is ergonomically designed & manufactured to protect from heat, sparks, molten metals & electric shocks. Its featured to have longest sleeve builtin so don't need to use extra sleeve with gloves.

Made with selected strong, soft and durable cow hide grain leather. Palm design to the seamless little finger to avoid from burning during any job of welder or Metallurgy

Ergonomic designed sleeve made of cow hide split suede leather, that is selected from strongest part of the animal body i.e shoulder. Sleeves extended to the 22 inches length with part to help in bending, working and resting. Rest patch reinforced

100% Kevlar thread 3 to 4 ply used for stitching and most stress areas are double stitched.

Reinfcored with cowhide split suede leather on palm, rest patch, Finger tips and back of the hand are also reinforced
